

Muhammad Anees

Computer Science Student | Software Engineer | AI & Machine Learning Enthusiast

Professional Summary

Passionate Computer Science student with hands-on experience in full-stack web development, machine learning, and Chrome extension development. Experienced in building modern applications using Python, Java, JavaScript, React, FastAPI, MongoDB, and Git/GitHub. Strong interest in Artificial Intelligence, software engineering, and creating practical solutions to real-world problems.

Technical Skills

- Programming: Python, Java, JavaScript, HTML5, CSS3
- Frameworks & Libraries: React, FastAPI, Vite, Tesseract.js, Scikit-learn, Pandas
- Databases: MongoDB
- Tools: Git, GitHub, VS Code
- Concepts: Machine Learning, REST APIs, JWT Authentication, WebSockets, OCR

Projects

Extractly – OCR Chrome Extension

Developed a Chrome Extension that extracts text from images and screenshots using OCR. Implemented drag-and-drop, image upload, screenshot paste, automatic text extraction, and a modern user interface using Manifest V3 and Tesseract.js.

ChatterBox – Real-Time Chat Application

Built a full-stack real-time chat application using React, FastAPI, MongoDB, and WebSockets. Implemented JWT authentication, group chat functionality, and backend APIs.

Personality Analysis Engine

Designed and trained a machine learning application for emotion/personality prediction using Python, TF-IDF, Logistic Regression, Pandas, and Scikit-learn with an interactive interface.

Education

Bachelor of Science in Computer Science
Sukkur IBA University
Expected Graduation: 2028

Certifications

- Google Prompting Essentials and Google AI
